Agenda:

- Welcome
- Rocco DiRico, Community Relations
- John Morris, Athletics
- Jenn Whitney, Operations
- Questions & Answers
Existing Conditions

Baseball Stadium Renovation - Community Meeting
Tufts University
Proposed Baseball Improvements:

- Renovations to existing venue (smaller footprint)
- Upgraded field surface to synthetic turf
- Upgraded dugouts / batting cages / bull pens
- Upgraded field perimeter fencing, gates and safety netting
- Upgraded spectator seating
- Upgraded press box
- New state-of-the-art LED sports lighting
- Improved overall aesthetic
Field Proposed Light Levels:
- Minimum NCAA Guidelines
- Infield – 70 Foot Candles
- Outfield – 50 Foot Candles
Purpose & Benefits:

- All improvements are completed within the existing baseball field footprint
- Synthetic surface allows for:
  - Increased play (Medford youth baseball)
  - Less water use
  - Decreased maintenance and fertilizers
- All improvements to the fields, dugouts, press box and spectator seating will meet or exceed handicap accessibility requirements
- State-of-the-art LED sports lighting allows for:
  - Very sharp lighting cut offs minimizing light spill
  - Increased play by both athletics and the community
  - Meets the academic needs and schedule of the Tufts students
- Ability to host local events
Next Steps:

• Community Meeting - Tonight
• Apply for Building Permit

Anticipated Schedule:

• Begin Construction – Target Mid-March 2022
  • Field, Fence, Backstop, Dugouts, Scoreboard, Spectator Circulation
  • Complete Work by August 29, 2022
• Lights, Bleachers, Press Box will extend longer
• Final Completion Anticipated – March 2023
